

### **Guidelines to rapporteurs**

For each session there will be one rapporteur. Succinctly summarising the main points in the discussions following presentations is the main task of the rapporteurs. Please don't repeat what is said by the presenters. Rapporteurs are kindly asked to prepare a report that is not more than one page for each session (roughly one paragraph for discussion of each paper will do). In addition, please prepare two bullet points (each not more than one line) which rapporteurs think are highlights of the whole session. The bullet points from all the sessions will be compiled for a wrap up session at the end of the conference.
