

Name

Keywords

Maria Abranches
m.abranches@uea.ac.uk

Keywords: Migration and displacement, land, food, livelihoods

Sheila Aikman
sheila.aikman@uea.ac.uk

Keywords: Ethnography, intercultural education, indigenous movements, political ontologies, language repertoires, qualitative research, interpretative research

Edward Anderson
edward.anderson@uea.ac.uk

Keywords: Inequality, globalisation, aid

Laura Camfield
l.camfield@uea.ac.uk

Keywords: Qualitative/mixed methods for poverty research and evaluation, children and young people, ethics, wellbeing

Vasudha Chhotray
v.chhotray@uea.ac.uk

Keywords: Political analysis of environment and development; governance and citizenship

Paul Clist
paul.clist@uea.ac.uk

Keywords: Development aid, payment by results, risk preferences, co-operation across ethnic/linguistic boundaries, social norms, experimental economics

Neil Dawson
neil.dawson@uea.ac.uk

Keywords: Poverty, wellbeing, biodiversity conservation, agricultural development, environmental justice

Ben d'Exelle
b.dexelle@uea.ac.uk

Keywords: Behavioural/experimental development economics, impact evaluation in low-income countries

Maren Duvendack
m.duvendack@uea.ac.uk

Keywords: Financial inclusion, microfinance, applied econometrics, development economics, impact evaluation/systematic reviews, evidence gap maps, research synthesis, financial development, quantitative methods

Gareth Edwards
gareth.edwards@uea.ac.uk

Keywords: Political ecology, environmental justice, climate justice, capabilities, climate change politics

Lucio Esposito
lucio.esposito@uea.ac.uk

Keywords: Poverty, inequality, education, health, justice

Roger Few
r.few@uea.ac.uk

ation, disaster risk reduction, capacit

Emma Gilberthorpe
e.gilberthorpe@uea.ac.uk

ty development, indigenous rights, mir

Media, social media, communications,

David Girling d.girling@uea.ac.uk

Keywords: Community forestry,
conservation, ecosystem services,
human wellbeing, participatory
mixed methods

Nicole Gross-Camp
n.gross-camp@uea.ac.uk

Keywords: Gender analysis,
anthropology of development,
research methods

Sam Jackson
cecile.jackson@uea.ac.uk

Keywords: Globalisation, corporate
social responsibility, trade, foreign
investment

Rhys Jenkins
r.o.jenkins@uea.ac.uk

Keywords: Ethnic conflict, election
violence, politics

Sarah Jenkins
sarah.jenkins@uea.ac.uk

Kate Jere
c.jere@uea.ac.uk

Keywords: Educational research,
gender, school violence and bullying,
HIV/AIDS, mixed methods,
participatory research

Ben Jones **b.w.jones@uea.ac.uk**

Keywords: Rural development,
Christianity, religion, donors, NGOs,
ethnography

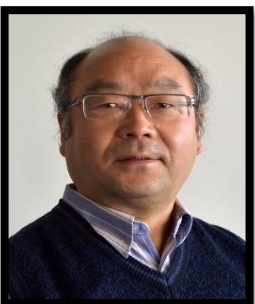

Bereket Kebede
b.kebede@uea.ac.uk

Keywords: Social preferences, intra-
household allocations, inequality and
poverty, experimental games,
personality

Peter Lloyd-Sherlock
p.lloyd-sherlock@uea.ac.uk

Keywords: Older people, social
protection, health

Yuelai Lu
y.lu@uea.ac.uk

Keywords: Agriculture, food,
environment

Bryan Maddox
b.maddox@uea.ac.uk

Keywords: Education, educational assessment, anthropology

Adrian Martin
adrian.martin@uea.ac.uk

Keywords: Conservation, rural livelihoods, environmental justice, forests

John McDonagh
j.mcdonagh@uea.ac.uk

Keywords: Agriculture, food, farming, soil resources, resource assessment

Raya Muttarak
r.muttarak@uea.ac.uk

Keywords: Climate change, vulnerability, sustainable development, migration, population dynamics

Mark New
m.new@uea.ac.uk

Keywords: Climate change science, climate change impacts and adaptation

Elissaios Papyrakis
e.papyrakis@uea.ac.uk

Keywords: Economic growth,
extractive industry and development,
climate change, environmental
economics

Kavita Ramakrishnan
k.ramakrishnan@uea.ac.uk

Keywords: Eviction, resettlement,
informality, migration, refugees

Nitya Rao **n.rao@uea.ac.uk**

Keywords: Agriculture and land
relations, nutrition, migration,
climate change, intra-household
dynamics, gender analysis

Iokine Rodriguez-Fernandez
i.rodriguez-fernandez@uea.ac.uk

Keywords: Environmental conflicts,
conflict transformation,
environmental justice, indigenous
peoples, power

Keywords: HIV, adherence, self-management

Steve Russell s.russell@uea.ac.uk

Keywords: Climate change governance, international climate change negotiations, urban climate governance, REDD+, sustainability

Heike Schroeder
h.schroeder@uea.ac.uk

Keywords: Aidnography, the project format, aid results agenda, evaluation, qualitative research

Caitlin Scott
caitlin.scott@uea.ac.uk

Keywords: International communications, international journalism, content analysis, media development, communication for development

Martin Scott
martin.scott@uea.ac.uk

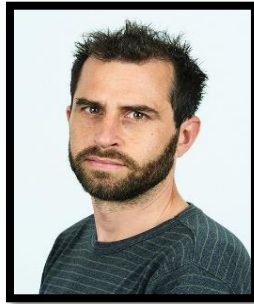

Keywords: Forest, land, governance, political economy

Oliver Springate-Baginski
oliver.springate@uea.ac.uk

Ludek Stavinoha
l.stavinoha@uea.ac.uk

Keywords: Media, communication,
civil society, trade
governance, refugee crisis

Mark Tebboth
m.tebboth@uea.ac.uk

Keywords: Mobility, internal
migration, refugees, forced
displacement, resilience, adaptation
and vulnerability, risks and responses
to environmental and climate change

Ulrike Theuerkauf
u.theuerkauf@uea.ac.uk

Keywords: Civil wars, political
violence, democracy and
democratisation, political institutions

Arjan Verschoor
a.verschoor@uea.ac.uk

Keywords: Agricultural insurance,
intra-household allocation

Keywords: Recovery, resilience,
adaptation, wellbeing, environmental
justice, fisheries, fishing communities

Carole White
carole.white@uea.ac.uk

Mark Zeitoun
m.zeitoun@uea.ac.uk

Keywords: Water security,
transboundary water conflict,
transboundary water cooperation,
armed conflict and water, water
policy, water management

Location(s)

Research Interests

Locations: Africa (Angola, Guinea-Bissau); Europe (Portugal, UK)

Research Interests: Post-war contexts, internal displacement and return; migration in Europe; economic and social dynamics of land tenure in Angola; rural and urban livelihoods in Africa; food as a vehicle for creating sustainable connections between people and spaces; multi-sited (cross-border) qualitative methodologies

Locations: Latin America, Amazon Basin, sub-Saharan Africa

Research Interests: Educational policy and practice particularly in relation to questions of social and gender justice and empowerment, pluralities of knowledges and radical socio-cultural and linguistic change

Locations: Latin America, Africa

Research Interests: Inequality and poverty, globalisation and international trade, allocation and effectiveness of international aid, systematic reviews and meta-analysis

Locations (in order of duration): UK, Ethiopia, Thailand, Vietnam, Pakistan, Andhra Pradesh (India), Bangladesh, Uganda, South Africa, Kenya, Mozambique, Peru

Research Interests: Using qualitative and mixed methods approaches in research on poverty and evaluation; exploring, measuring and understanding subjective well-being in developing countries; children and young people

India, South Asia

Political analysis of development, political settlements, governance, citizenship, identity documents, political economy analysis of environmental change, extractive development, hydropower, disasters, vulnerability and recovery

Uganda, Rwanda, Senegal

Development aid including its allocation, effect on tax revenue, and payment by results; experimental economics (mainly risk and social preferences)

Sub-Saharan Africa, Asia, South America

Poverty, wellbeing and environmental justice research among rural populations in developing countries, primarily those living alongside some of the world's biodiversity hotspots. Specific themes: biodiversity conservation and protected areas, agriculture, and climate change mitigation and adaptation

Uganda, Tanzania, Nicaragua and Burkina Faso

Rural investment behaviour, reproductive health, gender, social networks, rural markets, irrigation, community-based development

South Asia, East Africa	Quantitative impact evaluation methodologies, systematic reviews, replication and reproduction of quantitative analyses, research ethics, use of secondary data sources, evaluation expertise related to microfinance, women's empowerment, reproductive health, public works, education, payment by results, fairtrade
Guided by research interests, current research focussed on Australia and India	Political ecology of climate change and water, environmental justice theory, climate justice, environmental ethics, environmental governance, capabilities and well-being dimensions of environmental justice, coal and climate change
Latin America and the Caribbean, Southern Africa	Conceptualisation and measurement of different aspects of poverty and inequality. Study of their empirical links with educational and health outcomes
Latin America and Caribbean, sub-Saharan Africa, South Asia, South-east Asia	Linkages between risk, environment and development. This includes the fields of disaster risk, climate change adaptation and environmental health risks
Papua New Guinea, Australia, Africa	Indigenous knowledge, indigenous agency in extractive industry, impacts of extractive industry on social, economic and political environments at the local, national and global level, corporate social responsibility and community development

Africa	Social media in developing countries, INGOs use of social media, humanitarian communication, communication for development, development photography, NGO marketing, communications, branding and digital media, tourism for development
Sub-Saharan Africa	(1) understanding the socio-ecological impacts of conservation and development interventions at the interface of subsistence or forest-based communities and protected areas, and (2) developing indicators to monitor equity in protected areas - broadly defined
Sub-Saharan Africa, south Asia	Gender analysis in relation to: intra-household relations, marriage, anthropology and social change, consumption and development, research epistemologies, poverty and wellbeing, land rights, environmental change, experimental methods, games, social theory
China, Latin America	Globalisation and economic development including issues in international trade, and the activities of transnational/multinational corporations, including corporate social responsibility. Economic relations between China and developing countries, particularly Latin America
Sub-Saharan Africa	Dynamics of ethnicity and ethnic conflict, and the causes, manifestations and consequences of electoral violence

Malawi, Sub-Saharan Africa	Role of education in international development and social justice, and related global challenges in policy, practice and transformation. Mixed methods and participatory research and evaluation in: gender equality and education (including school-related gender-based violence) globally and in Sub-Saharan Africa, social exclusion, marginalisation and inclusive education; non-formal and complementary basic education and skills programmes, HIV/ AIDS mitigation and prevention
Sub-Saharan Africa, especially Uganda	Religious change in Africa, political development in Uganda, community level institutions, non-state actors
Bolivia, Cambodia, China, Ethiopia, Ghana, India, Laos, Mozambique, Nigeria, UK, Rwanda, Tanzania, Uganda	Behavioural development economics: (mainly) utilising experimental economics in conjunction with large-scale survey data to understand intra-household allocation, social preferences, individual welfare and impact analysis
Low and middle income countries, especially Latin America and South Africa	Health and wellbeing of older people in low and middle income countries; non-communicable disease policy and interventions
UK, China	Sustainable agriculture with a particular focus on resource use efficiency and reduce environmental impact, food security, and international cooperation

South Asia, Europe, Mongolia

Ethnographic and micro-analytic perspectives on assessment response processes in International Large-Scale Assessments (ILSAs)

(mainly, but not exclusively)
East Africa including Rwanda,
Tanzania, Uganda

Conservation and forest governance in the global South,
global environmental justice, environmental conflicts

East and Southern Africa,
Kyrgyzstan, Thailand, China

Small-holder agriculture management and land resources
assessment in the global south

Southeast Asia, South Asia,
sub-Saharan Africa, UK, USA,
Europe

Differential vulnerability to environmental change and
adaptive capacity, population, environment and
development, education and sustainable development,
migration, social inequalities in health

Africa

Climate monitoring, detection and attribution, climate
projections and scenarios, climate adaptation assessment,
planning and implementation, climate policy, entry points
to climate change include water resources, agriculture,
ecosystem services, food-water-energy interactions

Global comparative analysis, sub-Saharan Africa	Resource curse, determinants of long-term growth, links between institutions and long-term economic development, well-being and growth, ethnicity and macroeconomic performance
India, Europe	1) Everyday experiences of informality, slum eviction and resettlement in India; and 2) refugees and migration in Europe, including refugees' negotiation of infrastructure, housing and asylum-seeking processes
South Asia, Kenya, Ethiopia, Nigeria	Gender and development with a special focus on land and agrarian issues, migration, nutrition, education and intra-household dynamics more broadly
Venezuela, Guyana, Ecuador, Chile, Bolivia	Environmental conflict transformation in Latin America using participatory action-research focussing on issues of local history, local knowledge, power, environmental justice, equity and intercultural dialogue

Uganda, Sri Lanka	Social aspects of HIV in the Global South - in particular, people's self-management of HIV while on treatment, changing patterns of HIV stigmatisation, masculinities and how this affects men's self-management and retention in treatment, and the role of health care providers in promoting good self-management
Global and local (plus Japan, Indonesia and Mexico)	Climate change governance, international climate change negotiations, urban climate governance, REDD+, indigenous peoples, food governance, sustainability, justice and equity, institutions, multilevel governance, culture, mindsets and values
Colombia, Ecuador, Kenya, India	Anthropological approaches to development practice, with a particular interest in projectised aid; monitoring and evaluation systems; child rights based approaches to research and development
Global	Most aspects of international communications (including the content, reception and production of international news, INGO communications and humanitarian journalism), media development (including capacity building, press freedom, access to (new) communications technologies, philanthropic funding etc.), communication for development, or more instrumental uses of media for development
Burma/Myanmar, Nepal, India, Asia	Forest and land governance reform and rural livelihood development, particularly upland ethnic communities Myanmar/Asia

Greece, EU	The role of the media and communication in international development and trade politics. His research explores the mediated relations of solidarity between volunteers and refugees in Greek refugee camps
Kenya, Ethiopia, China	Geography and political ecology, social and natural sciences, human responses to environmental and climate-related risks, specialism in migration, mobility and forced displacement
All countries 1945 to today (time-series-cross-section analysis), with a particular interest in Afghanistan, Iraq, Syria, El Salvador, Russia, India, Spain, Germany, UK	Causes and consequences of political violence more generally and ethnic civil wars in particular, with a main focus on the effects of political institutions (including electoral systems, forms of government, state structures and corruption) on ethnopolitical (in)stability and political regime types
Rural Sub-Saharan Africa, rural India	Agricultural investment decisions of smallholder farmers, agricultural insurance, issues around intra-household allocation in rural sub-Saharan Africa and rural India
UK, Europe, Caribbean, Pacific, Indian Ocean, South Asia	People's responses to natural, economic and social shocks or change, processes of development and inequality, political change in UK, Europe and around world

Middle East and Africa

Development of theory and case-based research on international transboundary water management; examination of the influence of armed conflict on water and other urban services; water resources security and management in development, post-conflict, and conflict contexts
