

TONY DOLPHIN – PUBLICATIONS SINCE 2000

Journal articles

- Fairley, I., Davidson, M., Kingston, K., Dolphin, T., Phillips, R. (2009). Empirical orthogonal function analysis of shoreline changes behind two different designs of detached breakwaters. Coastal Engineering, 56 (11-12), 1097-1098.
- Dolphin, T., Vincent, C. (2009) The influence of bed forms on reference concentration and suspension under waves and currents. Continental Shelf Research 29, 424-432.
- Dolphin, T.J., Vincent, C.E., Coughlan, C. and Rees, J.M. (2007) Variability in sandbank behaviour at decadal and annual time scales and implications for adjacent beaches. Journal of Coastal Research SI50, pp. 731-737.
- Coughlan, C., Vincent, C.E., Dolphin, T.J. and Rees, J.M. (2007) Effect of tidal stage on the wave climate inshore of a sandbank. Journal of Coastal Research SI50, pp. 751-756.
- Dolphin, T.J. Green, M.O. Radford, J.D.J. and Black, K.P. (2001) Biofouling of optical backscatter sensors: Prevention and analytical correction of data, Journal of Coastal Research, 34, SI, 334–341.
- Green, M.O. Bell, R.G. Dolphin, T.J. and Swales, A.J. (2000) Silt and sand transport in a deep tidal channel of a large estuary (Manukau Harbour, New Zealand) Marine Geology, 163, 217-240.

Chapters in edited books

- Bacon, J.C., Vincent, C.E., Dolphin, T.J., Taylor, J.A., Pan, S-Q. and O'Connor, B.A., (2007) Shore-parallel breakwaters in meso-tidal conditions: tidal controls on sediment transport and their longer term, regional impacts at Sea Palling, UK. Journal of Coastal Research SI 50 (Proceedings of the 9th International Coastal Symposium), 21-24, Gold Coast, Australia, ISSN 0749.0208., pp. 369-373.
- Dolphin, T.J. Grasmeyer, B.T. and Vincent, C.E. (2005) Sand suspension due to waves and tidal flow over shore and long wave ripples and flat beds on the Dutch shoreface. In: van Rijn, L.C. Soulsby, R.L. Hoekstra, P. and Davies, A.G. (eds.) SANDPIT: Sand Transport and Morphology of Offshore Mining Pits, T1-T10.
- Grasmeyer, B.T. Dolphin, T.J. Vincent, C.E. and Kleinhans, M.G. (2005) Suspended sand concentrations and transports in tidal flow with and without waves. In: van Rijn, L.C. Soulsby, R.L. Hoekstra, P. and Davies, A.G. (eds.) SANDPIT: Sand Transport and Morphology of Offshore Mining Pits, U1-U13.

- Dolphin, T.J. Taylor, J.A. Vincent, C.E. Bacon, J.B. Pan, S. and O'Conner, B.A. (2004) Storm-scale effects of shore-parallel breakwaters on beaches in a tidal setting (LEACOAST). In: Proceedings of the 29th International Conference on Coastal Engineering, Lisbon, Portugal, 3, 2849-2861.
- Bacon, J.B. Vincent, C.E. Dolphin, T.J. and Taylor, J. (2004) The offshore breakwater scheme at Sea Palling, England; Sand transport generated by tidal currents. In: Proceedings of the 29th International Conference on Coastal Engineering, Lisbon, Portugal, 2, 1896-1908.
- Hoekstra, P. Kleinhans, M.G. Grasmeijer, B.T. Monfort, O. Dolphin, T.J. Boers, M. and Hearn, S. (2005). In: van Rijn, L.C. Soulsby, R.L. Hoekstra, P. and Davies, A.G. (eds.) SANDPIT: Sand Transport and Morphology of Offshore Mining Pits, -N17.
- Grasmeijer, B.T. Dolphin, T.J. Doucette, J.F. Hearn, S. Kleinhans, M.G. Monfort, O. van Rijn, L.C. and van der Werf, J.J. (2005). In: van Rijn, L.C. Soulsby, R.L. Hoekstra, P. and Davies, A.G. (eds.) SANDPIT: Sand Transport and Morphology of Offshore Mining Pits, T1-T10.
