Eduroam: Apple iPhone / iPod / iPad

The following instructions apply to using the Eduroam wireless service on the iPhone or iPod Touch. **Please note: this will only work if you have upgraded to firmware version 2.0 or above**

Turn on wireless ([Settings] then [Wi-Fi]). You should see a list of available wireless networks. Select the eduroam network.

Enter your username followed by @uea.ac.uk (for example abc10xyz@uea.ac.uk) and the account password.

The certificate will be shown; click Accept.

You will be returned to the Wi-Fi Networks screen; this should show that you are now connected to Eduroam.
