

## **Forthcoming Events**

### **September – December 2009**

The universities within the **Making Research Count** network are currently in the process of planning their programmes for the autumn. The following list gives a month by month listing of the initial events which are being organised, and further events will be posted as soon as possible.

Places are free to staff from agencies in membership with the University mounting the event. At some events there may be a limited number of places available, at a small cost, to agency staff in membership with a **Making Research Count** programme at one of the other universities. On occasions there may be some full-cost places available to non-member agencies and organisations.

For availability and booking information, please contact the programme coordinator at the relevant university. Contact details can be found through the 'Universities' page of the website.
