Subject: R&D Confirmation - Arrisa - IRAS No: 161432 - PCT 1049 - Research Sites - SW
Peninsula

Dear All

I confirm that all study documentation and regulatory approvals have been received in relation to the above research being carried out at Primary Care Providers within SW Peninsula (covering NEW Devon, Somerset, South Devon & Torbay and Kernow CCGs).

In line with Health Research Authority guidelines, R&D offices are no longer required to provide assurance on research studies. It is now the responsibility of the individual sites to give their own confirmation to Sponsors that they have the capacity and capability to support a study by agreeing/signing their own Statement of Activities and Contract.

Please ensure that your R&D and Research Associate Team are made aware when a site confirms its capacity and capability (forwarding on the above signed documentation) and when they are ready to commence recruitment.

I can confirm that Service Support Costs have been agreed for our region.

Please note, it remains the Sponsor's responsibility to ensure that the correct study documentation is provided directly to sites.

Do not hesitate to contact me should you wish to discuss further.

BW
