DORIS LESSING AT 100: THE WRITER'S QUEST

Doris Lessing is a widely-read and culturally important writer, yet her academic reputation does not reflect this fact. This major international conference proposes a new critical exploration of her life and work and seeks to establish Lessing as a central figure in twentieth-century literature who traverses a range of forms, styles, periodising categories, genres, political orientations, and readerships.

KEYNOTE SPEAKERS

MARGARET DRABBLE Lessing's close friend and colleague
