

Sir Muir Russell

In your statement in the section "Biography", a part of your Independent Climate Change [Em@il](#) Review, you neglected to provide the full biography for Professor Geoffrey Boulton, OBE. Note that he also had the following association which was, I am sure, mistakenly left out of his impressive biography. I know you will want to correct the record.

1968-86: School of Environmental Sciences, University of East Anglia. Lecturer:1968-76,
Reader:1976-86 (half-time, 1982-86)

Hope you find this helpful.

Stephen E. Graves
