

Dear Sirs

You will have a problem convincing anyone of your independence when you start off with a clearly prejudicial and ill-informed statement, viz:

The independent Review is being led by Sir Muir Russell KCB DL FRSE. It will investigate key allegations arising from the series of hacked emails from the Climate Research Unit. Full details of its terms of reference and scope can be found [here](#).

Observations:

- 1) You do not know that the "e-mails" were hacked ... this is an assumption.
- 2) There were more than e-mails involved ... what about the HARRY_READ_ME file?

Best wishes

Richard North (Dr)
